

Annex 1
Ph.D. in BioRobotics

Coordinator	Prof. Paolo Dario e-mail: paolo.dario@sssup.it
Brief description	<p>The PhD in BioRobotics is a full-time mandatory attendance three-year programme and is equivalent to a research doctoral programme pursuant to Italian Law no. 41 of 14 February 1987. In line with the standards of excellence pursued by the School, the Programme represents a three-year training path aimed at research activity into the themes of biomedical microengineering, biomimetic robotics, rehabilitation and assistance technologies, computer-aided surgery technologies and service robotics. A distinctive characteristic of the PhD in BioRobotics is that it trains PhD students, encouraging them and guiding them to pursue great scientific and technological challenges according to the concepts of "science-based engineering". The PhD students will be educated and trained on modern engineering and will be able to devise and design extremely revolutionary, high quality and highly technological machines, systems and services with superior performance and of interest in terms of scientific knowledge and application, including in industry. The solutions devised by PhD students focus on human beings and Companies, according to principles of technological, environmental, social, ethical and economic sustainability.</p> <p>For further information: http://www.sssup.it/biorobotics Candidates can also visit our thematic site: http://sssa.bioroboticsinstitute.it</p>
Language	Italian, English
Duration	3 years
Number of positions available	<p>12 positions, of which:</p> <ul style="list-style-type: none"> – 6 with scholarship – 6 with research fellowship lasting three years pursuant to article 22 of Italian Law 240/2010, as provided for under article 8, paragraph 3 of Italian Ministerial Decree no. 45/2013, from research funds of the BioRobotics Institute. <p>The number of positions with scholarship may be increased if further funding becomes available, including funding originating from specific agreements pursuant to article 11 of Italian Ministerial Decree 45/2013 (Industrial PhD) or from apprenticeship contracts, pursuant to article 11 of Italian Ministerial Decree 45/2013 and article 5 of Italian Legislative Decree 167/2011 (High-level Apprenticeship PhD).</p>
Scholarship amount	<p>16,000.00 euros gross paid to payee in deferred monthly instalments.</p> <p>The gross amount includes social security contributions payable by the recipient.</p>
Research fellowship amount	<p>19,367.04 euros gross paid to payee in monthly instalments.</p> <p>For fair distribution of the resources and in regard to the higher amount of the research fellowship compared to the scholarship amount, please note that the research fellowship includes contribution for period abroad.</p>
Submission deadline for the online application	22 June 2015 at 12.00 p.m. (Italian time).
Documentation obligatory under penalty of exclusion, to be attached to the online application	<ul style="list-style-type: none"> a) pdf format copy of a valid identity document; b) CV; c) academic transcripts of examinations passed in degree courses, both for Bachelor and M.Sc. Degree indicating the mark received for each one, showing any first class honours awarded; and specifying the average mark; a list of examinations passed, along with marks, in both the degree courses must be provided in order to be able to fully assess the candidate. Where required, those holding a qualification obtained abroad must indicate the minimum and

	<p>maximum marks required for obtaining the same qualification, as well as the minimum and maximum marks possible for each individual examination;</p> <p>d) only for candidates who obtained their qualification abroad: copy of the University Master Degree (to be translated in Italian or in English unless written in French, German or Spanish). Candidates that are going to obtain the M.Sc. Degree no later than October, 31st must submit a draft or a summary of their degree thesis;</p> <p>e) copy of the degree thesis– M.Sc. Degree - (or an abstract of at least 5 pages, with a photocopy of the cover page) and of any other qualification they deem appropriate (for example, articles published or submitted – with submission certification documents-, participation in courses, attendance at schools, internships, documents attesting to work experience or research carried out, if any; typewritten works are permitted); candidates that are going to obtain the M.Sc. Degree no later than the starting date of the Program must submit a draft or a summary of their degree thesis;</p> <p>f) names and contact details of at least two members of university teaching staff who monitored the candidate’s education during his/her university studies; letters of reference, if any, may be sent by the member of teaching staff to the following email address: PhDBiorobotics@sssup.it;</p> <p>g) a research plan of a maximum of 3500 words which must include (in English or in Italian):</p> <ol style="list-style-type: none"> 1. the title of the research; 2. the scientific premises and relevant bibliography; 3. the aim and expected results of the research project; 4. the experimental and data analysis methods, where necessary. <p>The purpose of submitting the research plan is to ascertain the candidate’s vocation for research and his/her ability to submit an innovative, coherent and independent research plan; the said plan is not binding for the definition of the research plan to be carried out as part of the Programme.</p>
<p>Test examinations</p>	<p>Qualifications and Interview</p> <p>Selection will be performed through an assessment of the qualifications listed in the section “documentation to be annexed to the online application”, from points b) to e) inclusive, with the awarding of a maximum of 50 points, and an interview, for a maximum of 50 points. The Board will therefore award a score from 1 to 100, out of one hundred.</p>
	<p><i>Assessment of qualifications – maximum score possible: 50</i></p> <p><i>Interview- maximum score possible: 50</i></p> <p>1. The Examining Board will assess the scientific qualifications submitted, expressing a concise judgement and awarding a score out of fifty. Those candidates obtaining a score of at least 35/50 in the assessment phase will be accepted for interview.</p> <p>Candidates are not required to be present during the assessment of qualifications.</p> <p>2. The interview may also be carried out using electronic communications instruments which allow the candidate to be identified. The interview will entail a discussion about the qualifications submitted and the research plan, with the aim of ascertaining the candidate’s vocation for research and his/her ability to submit an innovative, coherent and independent research plan. Candidates obtaining a score of below 35/50 will be excluded from the merit ranking list.</p> <p>3. The School will notify scholarship holders of their admission to the School using the email address given in the application; the said scholarship holders are required to confirm their acceptance by responding within 15 days, on pain of forfeiture and awarding of the position to the first suitable candidate on the ranking list.</p>
<p>Test schedule</p>	<p>The test schedule will be published at: http://www.sssup.it/phdapplicationonline by 6 July 2015.</p> <p>The School will notify those candidates selected for interview in a timely manner of the day and time of the same, as well as of the score received in the assessment of qualifications phase, <u>by writing to the email address specified in the application.</u></p> <p>The general merit ranking list will be made available on the page: www.sssup.it/phdapplicationonline by 24 July 2015.</p>
